Mr. Tompkins of the Schedule Committee made a report on Schedule, which was on motion of Mr. Hardin (Sec'd by Mr. Brodie) referred to the Schedule Committee.

The Presd^t read a letter from Mr. Spies requesting a modification of the punishment in the case of C. H. Spies his son, formerly a cadet. The Presd^t stated that he had seen Mr. Spies since the letter was written & thought that Mr. Spies understood more fully the nature & gravity of the offense of his son than when the letter was written.

The Presd^t also read a letter from Mr. Johnson requesting that his son G. L. Johnson, formerly a cadet, be reinstated or that his case be reconsidered and the punishment modified.

The cases of Spies & Johnson were not reconsidered by the Faculty.

Mr. Fuller presented a petition to the Faculty through the Presd^t asking for more time for Military Instruction, both Practical & Theoretical.

The Presd^t stated that the Board of Trustees wanted the Military Instruction cut to the minimum required by the law in order not to interfere in any way with the Citadel.

Mr. Fuller stated that the minimum at least was what he wanted.

The Presd^t suggested that Mr. Fuller present to the Faculty a schedule of the number of hours he thought necessary to meet the requirements of the Military Dept. in Practical & Theoretical Instruction.

The Presd^t called attention to the regulation of the Board of Trustees regarding congregating

On motion of Mr. Morrison (seconded by Mr. McGee) the Faculty agreed to reconsider the motion of Mr. Clinckscale (Reg. Meeting Aug 19/96) in regard to allowing certain Mechanical Seniors to take English & Surgery equivalent to certain shop work under the approval of Mr. Tompkins.

Mr. Morrison read a statement signed by Prof. Tompkins in regard to the changes desired by the Mechanical Seniors and also a petition signed by the Senior Class - Mechanical Sections - (See papers on file.)

After considerable discussion ^{by the Faculty} Mr. Tompkins made the following statement of the case:-

That the practical work required in the Mechanical Dept for the Senior is Mechanical & Electrical Lab work & certain shop work.

That the Mech'l Dept is not now equipped to give instruction in Mechanical Lab & Electrical Lab work.

That in his opinion all Mech'l Seniors should be required to take the shop work.

That about half the class is now taking Calculus in place of the Mech'l & Electrical Lab work.

That he would recommend that the remainder of the Mech'l Seniors be allowed to take English & Surgery in place of the Mech'l & Electrical Lab work.

Mr. Clinckscale having withdrawn his motion it was (therefore) resolved by the Faculty

on motion of Mr. Levin (seconded by Mr. Brodie):-

"That Mechanical Seniors be allowed to take Surgery, English, or other work on approval of Prof. Tompkins, as substitute for mechanical & electrical Lab work, ^{if} such laboratories are ready to give them the prescribed courses; but that no substitute be allowed for shop work."

Dowling's

Mr. Fuller reported that Cadet Dowling had apparently been out of quarters during study hours without permission, on last Friday afternoon, & made false statements in his explanation of the report. Cadet Dowling was brought before the Faculty and allowed to make a statement in regard to the case.

Cadet Dowling stated that he had entered Mechel Hall through the engine room & thought that he had obtained Mr Wright's permission to go to the stores on business; he was not sure the gentleman he saw in the machine shop was Mr Wright.

From a statement of Prof Sompkins it appeared that certain optional work was allowed on Friday afternoons. As Mr Wright had not been at the machine shop on Friday afternoon, Cadet Dowling had apparently made a false statement in his explanation to the Commandant. After hearing all the evidence the Faculty on motion of Mr Furman (seconded by Mr Chinascales) referred the matter back to the Presd & Commandant.
